

Remote Alarm Verification Securitas Ireland

An Instant Security Presence Any Time, Anywhere

Alarm verification from Securitas Ireland gives you the shortest possible response time when an incident occurs. Our remote monitoring center activates cameras, scans premises and parking lots for unauthorized activity and potential threats, advises status and delivers an audible message that security is monitoring in real-time.

With remote alarm verification, a live video feed instantly puts an operator on the scene. While authorities are on their way operators can give them critical real-time updates as the situation unfolds.

Securitas Ireland supplements intrusion alarm monitoring with Remote Guarding to verify the cause of the activity. False alarms are reported to your emergency contact. Securitas Mobile officers and/or police are dispatched when intrusions are verified.

Advantages of Remote Alarm Verification:

- On-demand response to alarm activations
- Reduces costly false alarm fees imposed by local jurisdictions
- Cost-effective even if you have many sites in remote locations
- Access to cutting edge technology with no new major investment
- Part of a comprehensive service portfolio

How Remote Alarm Verification Works:

- Expert consultation to find best camera locations and angles
- Cameras and software connect to a 24/7 monitoring center
- Highly trained professionals remotely respond to alarm activations at your facility to determine the cause
- Response can include audio for live intervention
- Evidence is documented if an incident occurs
- Open platforms allow existing equipment to be utilized – often in combination with cutting edge technology

Partner network brings together industry's best

Securitas Ireland has global agreements with some of the security industry's top innovators. This allows us to deliver the best possible technology and services in simple, cost-effective packages. Some of our key partners are Milestone Systems, Axis Communication and Agent VI.

A knowledge leader in security

Remote Guarding, managed by Securitas Ireland, gives you state-of-the-art security in innovative and cost-effective packages. Cutting edge cameras and software create real-time security that helps prevent incidents, optimizes security officers' time and reduces costs.

Securitas Ireland offers a broad range of services that include specialized guarding, technology solutions, mobile guarding and corporate risk management; we customize offerings that are suited to the individual customer's needs. From small businesses to large corporations, our employees make a difference every day.
