

Remote Entry/Exit Management Securitas Ireland

Improve Your Access Control and Help Keep Your Facility Safe

Securitas Ireland Remote Entry/Exit Management provides on-demand processing of authorized employees and visitors requiring access to your facility. Our remote monitoring center activates cameras and audio devices, scans the area and follows the established authorization protocol.

The same capabilities offer the ability to carefully tailor perimeter monitoring for employee safety, procedure compliance and shrink reduction, including:

- **Employee Entry Management** - After-hour shipments through truck gates are processed and monitored for compliance and safety.
- **Vendor Entry Management** - Cleaning and maintenance crew activity is monitored for safety and shrink.
- **Backdoor Supervision** - Shrink reduction video monitoring to confirm that doors are only opened for approved activity.

Advantages of Remote Entry/Exit Management:

- On-demand processing of employees, visitors and contractors
- Services provided as needed
- Cost-effective even if you have many sites in remote locations
- Access to cutting edge technology with no new major investment
- Part of a comprehensive security service portfolio

How Remote Entry/Exit Management Works:

- Expert consultation to find best camera locations and angles
- Cameras and software connect to a 24/7 remote monitoring center
- Highly trained professionals remotely respond and process requests for entry to your facility
- Response can include one- and two-way audio for live intervention
- Keep close watch during critical events, e.g. opening/closing, transferring goods, etc.
- Evidence is documented if an incident occurs
- Open platforms allow existing equipment to be utilized

Partner network brings together industry's best

Securitas Ireland has global agreements with some of the security industry's top innovators. This allows us to deliver the best possible technology and services in simple, cost-effective packages. Some of our key partners are Milestone Systems, Axis Communication and Agent VI.

A knowledge leader in security

Remote Guarding, managed by Securitas Ireland, gives you state-of-the-art security in innovative and cost-effective packages. Cutting edge cameras and software create real-time security that helps prevent incidents, optimizes security officers' time and reduces costs.

Securitas Ireland offers a broad range of services that include specialized guarding, technology solutions, mobile guarding and corporate risk management; we customize offerings that are suited to the individual customer's needs. From small businesses to large corporations, our employees make a difference every day.
