

Rental Alarms

Sometimes when you are reconstructing your house or if a burglary occurs alarm issues may arise.

Sometimes when you are reconstructing your house or if a burglary happens, technical problems may arise, therefore it is important that you are able complement your regular alarm and security systems.

If you are reconstructing, renovating or have a working platform outside your house, it will feel safer to strengthen your regular alarm with a portable solution.

A rental alarm is of great help in temporary premises, storage rooms or show flats.

Our tailored system will incorporate the latest state of the art technology to ensure complete freedom, ease of use and meets the highest standards in the industry.

Rent Alarm

Page 2 of 2

Wireless Watchman is a portable, wireless, rapidly deployed, video verification intruder alarm powered by lithium batteries. It is a Grade 2, European Standard EN51031 alarm system.

The system can accommodate up to 24 individual wireless devices, ie internal/external cameras, sirens, smoke detectors, key fobs, etc on any one given panel. Multiple panels can be used therefore increasing the coverage of large areas.

The system is flexible and bespoke when the system is installed in the right environment eg a void, vacant or unauthorised access area. The lithium batteries can last in excess of four years based on two activations per month.

No power, no phone line and a limited budget should not mean no security
